## Own Home Product Oil.

We respectfully solicit your patronage. By patronizing us you are patronizing a home concern and without your help, we cannot hope to exist. Our gasoline has the punch you need for your car, with more mileage per gallon. Our lamp oil does not have the objectionable odor so often complained about in Kerosene. We have to burn oil ourselves for lights, consequently we have your interests right in our own home. We have high-grade gas-oil for fuel, oil engines and tractors. Road oil for your streets to keep the dust down this summer. Fuel oil for your steam boiler, that is cheaper to burn than wood. We would be pleased to quote you prices on any of the above products, and with our fair policy of satisfaction or your money back guarantee we are making friends rapidly. THE HOME CONCERN.

### Very Gratifying.

July 8, 1922.

Supt. F. E. Webb,  
Columbia, Ky.

Allow me to congratulate you and Adair county on the splendid County Teacher Training School which I found on my visit to Columbia this week. I spent about one and a half days in your school as a representative of the State Board of Education. I saw all of the instructors at work, giving their best to the teachers of Adair county schools. I found Adair County teachers giving their best for the sake of the children of the county.

With your corps of instructors, among the best in the State, working earnestly and effectively to make better teachers for your schools, and more than half of your teachers taking advantage of the County Teacher Training School, there is every reason to believe that better teaching will be done in Adair county this year than ever before, and the greatest need of all our schools is BETTER TEACHING.

I have visited 14 County Teacher Training Schools this summer. I have not seen a better school anywhere than yours. Your County Board of Education has done a fine thing for the teachers. On visiting your schools this year you will see the effect of this summer school. You and your board are to be commended for what you are doing for your county. I only hope that you will have a bigger and better county teacher training school next summer.

With kindest personal regards and best wishes for the year's work ahead of you, I am

Cordially and sincerely yours,

P. H. Hopkins,

State Supervisor of Rural Schools.

### Resolutions.

We, the students of Adair County Teacher Training School, hereby adopt the following resolutions:

First: That we extend to Prof. R. V. Bennett our sincere thanks for the use of the beautiful campus and buildings belonging to the Lindsey-Wilson Training School.

Second: That we express to the teachers of this school hearty appreciation of their interest and unceasing energy in our behalf and for the high standard of work which they have put before us, and trust that we may be so fortunate as to secure their service for our next Summer Normal.

Third: That to Mr. Webb, our County Superintendent, who has shown his genuine interest in the teachers and schools of Adair county, we extend our thanks and that we in return resolve to do our best to sustain his enthusiasm and plans.

Fourth: That we convert a part of the interest shown us into a like interest in the welfare of the children which shall come under our care in our school room, remembering that as we have received instruction and uplift so must we extend the same to others.

Bayard Antle,  
Maggie Cundiff,  
Malcolm Leach,  
Corinne Rippetoe,  
Esther Whitlock,  
Committee.

### More Power, More Miles

### To Legion Men.

A gigantic Clean-Up drive is being carried on by the Kentucky Disabled Ex-Service Men's Board and the Kentucky American Legion, to get all ex-service men who were disabled during the World War to file claims for compensation before August 9.

On that date, the Statute of Limitations takes effect, and claims presented after that time will receive no attention. Hence it is important that all disabled men file their applications immediately.
